NUMBER OF SALOONS REDUCED BY COUNCIL

Charges of Miscondnct Cause of Loss of License for One Saloon.

MUST NOT DISPUTE METERS

Chairman Merrill Completes New Map of City---City Officers Make Monthly Reports.

All of the Trustees were present at the meeting of the Council last Monday evening, at which one of the important matters was the consideration of the annual applications for renewal of saloon license permtis. While as a rule there appeared to be no hesitancy in approving the past conduct of the applicants, and their applications were granted without camment, action in a few cases made it plainly apparent that there is to be no hesitancy in dealing with undesirable cases, and that saloon keepers who fail to conduct their places in such manner as to avoid complaint need not expect permission to continue in the business. This was made particularly evident in the practically unanimous denial of a renewal of the license of Long & Green, at 32 Broadway. When this application had been read, Trustee Rice, chairman of the committee on public morals, moved that it be denied. The motion was seconced by Trustee Brown and without comment the roll was called, all voting aye except Hynding, who declined to vote. After the roll-call Trustee Hynding explained his action by stating that he had not heard of any complaint against the place, eliciting from Trustee Rice the reply that a number of complaints had been made to the committe and that investigation had shown these to be well founded. Final action upon the applications of C. Imporsani, B. Sheehan and LaRoche Bros. were laid over for one week, pending definite determination of distances from public school buildings.

The following dealers were granted licenses to do business for one year:

Herman Anderson, Main street.
Paul Demartini, Arguello street.
A. F. Hofen, Main street.
John Barg, Broadway.
Louis Braut, Main street.
M. D. Wilson, Broadway.
Alonzo Cook, Main street.
George Genochio, Main street.
Stafford Bros, Broadway.
G. C. Plump, Corner Main and Mound streets.
W. J. Plump, Main street.
Frank and Jean Larrouy, Broadway.
Ferdinand Schumacher, Redwood City House.
Victor Bernasque, County Road.
George Botsch, corner Mound street and County Road.
H. S. Sears, Broadway.
E. Andersen, Del Monte Hotel.
John Meyer, Mound street.
E. F. Schumacher, corner Broadway and Winslow.
Joe Roza, Broadway.

Gerhardt Weichring and L. Jensen & Son were each granted licenses under the provisions of the new billiard, pool room and bowling alley ordinance.

Monthly reports of the city officers were presented as follows:

Clerk Plump—collections: Water connections,$40; special permits, $10. Total $50.

Marshal—collections: Water, $708.95; water connections, $40; special permits, $10, Total, $758.95.

Treasurer Towne reported the condition of the funds to be as follows: Library fund, $908; Water System Extension, $19,117; General fund $9,-425.

In connection with his report, Marshal Christ explained that two or three delinquent water consumers had refused to pay their bills for last month on the plea that their bills were excessive. Trustee Beeger stated that, in compay with the Superintendent of Streets, he had made an inspection of the meters complained of and found that if anything they were giving the consmer a slight advantage. The Trustees concluded that it was time to put an end to the troubles of the Marshal on this score and directed the attorney to notify the "kickers" that unless delinquent bills were paid within 10 days the water would be shut off and the meters given an opportunity to recuperate.

Chairman Merrill presented a blueprint of the new city map, upon which he had been working for some time, and suggested that for a time it be exhibited for public criticism, in order that as far as possible errors might be detected before its publication. Mr. Merrill stated that, while had availed himself of every possible source of information, he felt certain these were some inaccuracies, due to imperfetions in plats filed. While as far possible these had been corrected, public inspection might render much assistance. It is hoped to have the map ready for the printer within the next two weeks.

Ordinance No. 80, amending several sections of the liquor license ordinance, was brough up for final consideration. After reading the ordinance was adopted, all of the members voting for its passage except Trustee Hynding, who declined to vote.

A resolution was adopted accepting the deed of C. A Hooper and others to a strip of land for an alley through block 10, in the Hooper subdivision.

Complaint was made that the crossing of the railroad track on Broadway was frequently blocked by standing freight cars. The Marshal was instructed to see that the crossing was kept open, even if this lead to the necessity of making arrests—although he was given no special instruction as to whether the cars or the railroad company was to be escorted to the lockup.

The report of City Engineer Neuman with details and profiles for the improvement of streets in improvement district No. 12 was presented. In order to allow of time for careful consideration, discussion of the report was deferred to an adjourned meeting to be held next Monday evening.

The United Gas & Electric Co. were given permission to lay gas mains in a portion of Hamilton street.

REMINISCENSES OF OUR PIONEER DAYS

Gleanings From the Records Left By Men Who Laid the Foundation of Our County.

BUILDING OF FIRST RAILROAD

Some Incidents of the Building of the Original San Francisco and San Jose Railroad.

From the time of the incorporation, things moved at a rather lively pace and at a meeting of the Board of Supervisors of this county held on the 4th of June, 1860, a call was ordered issued for an election to determine the qnestion of the proposed subscription to the stock of the company, the election to be held on the 3d of July. The same week the Supervisors of San Francisco County issued a call for an election for a similar purpose, the election to be held on the same date. At the meeting of the San Francisco Board the sentiment in favor of the proposition was not unanimous, as is shown by the fact that a resolution was offered adverse to the proposal. This resolution was referred to a special committee, with instructions to report as soon as possible.

The newly formed corporation soon discovered that it was not to have easy sailing, and that public opposition to some of its plans was strong, While there was little or no disapproval of the proposed road, the methods of the Company, and even the personel of its incorporators, was strongly objected to on all sides. This soon lead the chief promoters to decide to bow to public sentiment, and at a meeting held in the latter part of June it was decided to dissolve the corporation, not with a view of dropping the work, but for the purpose of reorganization upon a more acceptable basis. The resolution of disincorporation was adopted by a unanimous vote of the stockholders. Because of this disincorporation, the Supervisors, at their meeting on July 2d, passed a rasolution rescinding their call for an election.

When the resolution disincorporating the company was passed and the concern ended its short career, the men who had entered the work from the promptings of a pure public spirit and with a desire to advance the prosperity of the country, at least quite as much as for private gain, did not for a moment consider the idea of allowing the enterprise to languish. No sooner had the meeting adjourned than these men began the formulation of plans for the formation of a new company upon a basis which would insure public confidence and cooperation. This work was pushed rapidly forward, and about the middle of July the new company was incorporated, assuming the old name. The directors of this new corporation were Gen. J. A. McDougal, Timothy Dane, C. L. Weller and Henry M. Newhall, of San Francisco; T. G. Phelps, of San Mateo, and George H. Bodfish, of San Jose. The commissioners named to take charge of the work of disposing of the stock were D. S. Cook, of San Mateo; C. E. Allen, of San Jose; Charles McLaughlin, William J. Lewis and H. O'Donnell, of San Francisco. Thus was formed the organization which finally carried to completion the great work which began the actual development of this favored portion of the State of California.

Quietly but perseveringly these men went about their work, and while meeting with some little disgruntled opposition from those who had failed to control the enterprise for the purpose of private gain, soon met with most encouragiug results. So rapidly and successfully was the preliminary work pushed forward, that on the 24th of November of the same year the contract for the construction of the entire 50 miles of road was let, the contractors being Charles McLaughlin and Alexander H. Houston.

The contractors undertook to complete the entire work for $2,000,000, of which they were to receive $500,000 in cash and the remainder in the stock of the company, the stock to be issued in installments as the work progressed. For the sum mentioned the contractors agreed to complete and fully equip the road, with all the necessary buildings, fixtures and machinery, and to complete the entire work within three years from October 1st, 1860.

The contract as entered into provided that the stockholders were to be assessed only as the work progressed, and at no one time for a greater sum than 10 per cent ol the amount of stock held by them. It was also provided that the stockholders were in no event to be assessed for a greater amount than the par value of their stock, thus setting at rest the fear of the "individual liability" clause of the incorporation law.

Poison Oak Poisoning.

Ballard's Snow Liniment cures it. Mr. O. H. P. Cornelius. Surner, Ore., writes: My wife has discovered that Snow Liniment cures "Poison Oak Poisoning," a very painful trouble. She not only cured a case of it on herself, but on two of her friends who were poisoned by this same ivy. Price 25c, 50c and $1.00. Sold by Ryan's Drug Store.

COUNTY PIONEERS CROSS THE DIVIDE

Three Promtnent Residents of San Mateo County Answer Call of Grim Reeper.

Ott Durham, one of the oldest pioneers of the county, died at his home in this city last Saturday, after a long illness caused by a paralytic storke received five years ago. Mr. Durham came to the county in 1859. He was the youngest of three brothers, William, Thomas and Ott, all prom--inent citizens of the coastside. The two first named and a sister, Mrs. Beebe survive him. Deceased was a native of Ohio aged 67 years. In 1873 Mr. Durham married Miss Martha Teague who administered to his every want dur ng his long illness. The funeral took place Monday from the Congregational church. Interment was in Union Cemetery. Beside his wife he leaves to mourn him three children, George, Frank andMis May Durham.

Alpheus Underhill.

Alpheus Underhill, one of the county's early pioneers passed away Thursday morning after a lingering illness of over two years. Deceased hadbeen troubled with rheumatism for many years and some time ago suffered a paralytic stroke that confined him to his bed for the past fourteen months. His sufferings were intense at all times but he bore them patiently. He came from an old English family of wealth and culture of New York that were prominent in revolutionary days in that state. Mr. Underhill was a musician of note possessing a fine voice of large volume. In his boyhood days he often appeared in minstrel shows making a hit by his superb singing and whistling. Many of the old pioneers will recall his singing in the Republican campaigns of the county when he appeared in a quartette that rendered campaign songs to the amusement of hundreds. He was a staunch Republican and delighted in giving his services to his party. He never sought office. Mr. Underhill came to San Francisco in 1852 and for six years drove an omnibus from the old Plaza to the Presidio. He afterwards came to Mayfield where he drove a stage from that place to San Francisco. This was before the advent of the railroad. Coming to Redwood City he started the first confectionery store here, a business which he conducted until four years ago when his son George assumed control. In 1858 Mr. Underhill married Miss Adelaide De Zaldo, a daughter of an old Spanish grandee, who was an alcaldee of this district at that time. She has long since preceeded him to the grave. Deceased was an upright business man whose word was considered his bond. He enjoyed the friendship of a large circle of acquaintances who will mourn his demise. Deceased was a native of New York aged 79 years. He leaves five children to mourn him, W. H. Underhill, county auditor, George W. Underhill, Mrs. Adelaide Butts, Mrs Charles Hatch. The funeral yesterday was largely attended by old friends and neighbors. Interment was inUnion Cemetery. Mr. Underhill was a charter member of Metamora Tribe Imp'd Order of Redmen and was one of the few surviving members.

William Henry Douglas.

William Henry Douglas, a former pioneer of this county, passed away at the home of his daughter, Mrs. Morris, at San Jose last Tuesday from a hemorhage of the brain. Deceased came to this county in 1849 and at once engaged in the lumber business. Many years ago he came to Redwood City and conducted a shoe repairing shop until he retired five years ago, when he went to PaloAlto to reside with his daughter.

In the early seventies he was justice of the peace at Woodside a position he held for two terms. Some fourteen years ago he served a term as justice of the peace in Redwood City being succeeded to the office by the present justice. James Hannon.

The deceased was a native of Massachusets, aged 82 years. The interment took place in Holy Cross Cemetery yesterday. Many of his old friends in the countyattended the funeral.

He leaves four children, William and George Douglas, Mrs. Morris and Mrs. Milham, to mourn him.

Peter Towne.

Peter Towne, father of Frank K. Towne, assistant cashier of the First National Bank of this city, died at his home in Mayfield Thursday after a protracted illness. Mr. Towne was a native of Oxford County Maine. His parents came of oldNew England families. Deceased was born in 1834. While quite young he engaged in the business of collecting and shipping eggs to California by water a business that paid well in those days. Fired by adventure young Towne cam to the Golden State in1854 by the Nicaragua route arriving at San Francisco in April of that year. He spent some time in the mines of Calavaras County and on leaving the diggings he engaged in the commission business in the metropolis. Later he came to Woodside, this county, here he resided for ten years farming and manufacturing shingles. He lived in what is known as the Canyada at that time. During his residence in San Mateo county he held the office of supervisor from his district. In 1867 he was married to Miss Jennie Lee of Watsonville who survives him with two sons, A. L. Towne of Fresno and Frank K.Towne of this city. Mr. Towne had always taken a keen interest in all political matters. He was a staunch Republican and during his long life did good srvice for his party. At the time o his death he was one of the Town Trustees of the town of Mayfield. The funeral will take place this afternoon at 2 o'clocke from his late residence at Mayfield. Interment will be in Alta Mesa Cemetery, at Mountain View. The services will be under the auspices of Mountain View Lodge, F. and A.M., he having been a member of the lodge for a number of years.

Richard Jose Coming.

Since Richard Jose appeared here about a year ago, he with a company under his own personal management has covered a large scope of territory in the north and middle west and nothing but words of praise come from both press and public for his signor and the play, "Jane," which his company is producing.

Jose is so well and favorbly known throughout the country that comment is unneccessary; suffice to say that his long exeperience before the public has placed him on a plane where the best is none to good for them, and since their support has been so great he has endeavored to secure a company and a worthy of there future patronage. With this end in view he has secured the successful comedy, "Jane," and an all star cast for its presentation.

It is an excellent comedy which had a long run in New York at which time Johnstone Barnett was the star.

It has been staged and directed for Mr. Jose by Mr. Fred J. Butler of the Alcazar Theather of San Francisco, who has paid every attention to detail and will be played July 2d at the Alhambra.

Pioneer Days In Missouri.

In 1851 there was in Huntsville a man who pulled teeth for 25 cents and a photographer who made daguerrotypes at $1.50 each. The first was called "doctor" and the second "professor." They moved in the highest circles, as being the representatives of

His Mild Resistance.

Magistrate—Did you arrest the prisoner, McNutty? Officer McNutty—Oi did, yer honor. Magistrate—Did he offer any resistance? Officer McNutty—Only $2, yer honor.—Chicago News.

DAMES AND DAUGHTERS.

For the first time a woman journalist, Mme. Flamonkova, has been allowed to sit in the press gallery and report the proceedings of the Berlin landtag.

At the age of fifteen Miss Mary Crozer Page of Philadelphia is an M. F. H. It's the Upland Hunt club that has confided its foxhounds to Miss Mary's expert rulership.

Among other things, the Duchess of Rutland possesses the reputation of being able to draw a pencil portrait in four hours. She is one of the best amateur artists in England.

Duchess Carl Edward of Saxe-Coburg-Gotha is an accomplished typewriter and stenographer. She learned her trade in a German business college and boasts that she could earn 100 marks per month if thrown on her own resources.

Miss Elizabeth Colton of Massachusetts, who knows fifty-four languages, is also an authority upon the people and problems of India, as she knows them. She has found her knowledge of languages a great help in studying conditions in the east.

Signora Duse, the famous Italian actress, is peculiarly nervous. When she is not at rehearsals or acting she spends her time in perfect rest. She has a lady companion who arranges her journeys and engages her rooms in the hotels. This lady sees that Signora Duse's rooms, if possible, look out on a garden. She cannot bear street sounds or sights.

Sporting Notes.

Missouri A. C. athletes may use the old Delmar race track at St. Louis for training grounds.

The Cornell association football team includes a Chinaman, Greek and South American player among the eleven.

Brown, Princeton and Pennsylvania may have baseball teams in the Alaska-Yukon-Pacific exposition at Seattle this summer. Chicago, Illinois and Michigan have accepted invitations to play.

In the scoring of baseball games this year the summary calls for a distinction to be made in the recording of regular sacrifice hits and the fly to the outfield sacrifice hits that may be made.

Household Helps.

Nail holes can be filled with plaster of paris or soft beeswax and painted or papered.

To prevent wooden pails or tubs from shrinking when not in use, paint them over with glycerin.

Wax is better than soap to use on bureau drawers that stick. It works better and will not catch dirt so much.

A bedspread with worn portions cut out and the good trimmed into shape and hemmed makes excellent towels for the children's use in the bathroom.

When making a flour paste to apply to wall paper always add some dissolved alum. The alum not only makes the starch hold better, but it will kill any insects in the walls.

State Lines.

In Missouri there are only 270,000 acres of public land left, and the only United States land office is at Springfield.

The loss by fire in Maine last year was more than $4,000,000, the highest for ten years. The heavy losses in Portland account for the greater part of the excess.

There was a time when Ohio was noted for its forest products. Last year it yielded only 500,000 feet of the 40,256,154,000 feet of lumber cut in the country. Pennsylvania, which used to lead in this industry, now ranks as eighth among the states, Washington coming first and Louisiana second.

Laundry Lines.

Pull lace gently, opening the mesh with the left hand as you iron with the right.

To make woolen goods look like new and to restore their life and color, add one-half cup of vinegar to the rinse water.

If you scorch a garment when ironing it rub a lump of dry starch on the mark, then sponge it off. Repeat till the yellow disappears.

Instead of adding bluing to water in which lace has been rinsed try making the final rinsing in milk. It gives a lovely creamy tone to the lace.

Law Points.

Upon the expiration of a copyright upon a name used to designate a book the right to the use of the name in connection with such book is held in G. & C. Merriam Co. versus Ogilvie (C. C. A.), 159 Fed., 638; 16 L. R. A. (N. S.), 549, to become public property.

The provisions of a statute that a jointure is a bar to dower are held in Rieger versus Schaible (Neb.), 115 N. W., 560; 17 L. R. A. (N. S.), 866, not ordinarily to deprive the intended wife of her power to bar her dower by any other form of antenuptial contract.

Flower and Tree.

Leaves of the Asiatic star tree emit at night a clear phosphorescent light.

Two mahogany trees as large as maples are growing in Mrs. Mary Huebner's back yard at Litz, Pa. The trees were planted fifty years ago.

Olive trees demand a great deal of care. Unless they are well plowed, manured, trimmed and watered their fruit bearing qualities are greatly diminished.

More Than Pleased.

"Did Miss Flavilla seem pleased when you asked her to go to the theater?"

"Pleased! She wanted to keep the tickets for fear something might happen to me."—Chicago Record-Herald.

Gallant.

Beautiful Widow—Do you know, I'm forty years old today. Gallant Bachelor—Madam, you are just twenty. I never believe more than half of what I hear.

THE GARDENING HOBO.

His Experience With a Red Visaged, Flaming Haired Virago.

As he walked along the country lane and sniffed in the keen air of the early morning the wandering hobo felt within him the stirrings of an appetite that would not be appeased by anything short of real food, and a good deal of it at that. Devouring scenery and drinking in the salubrious morning air were all well enough in their way, but it was upon more substantial things that his hunger was now set. So, perceiving a farmhouse with a smoking chimney not far along the highway, he approached it and rapped briskly on the kitchen door.

The door opened immediately, and a huge, red visaged, flaming haired virago confronted him just as he was about to make a pleasant remark on the subject of the early bird.

"Well," she said, "what is it?"

"I don't know, ma'am," said he, beginning his retreat, "but it looks like a cross between a Sunday supplement and a war cloud."

"What are you looking for," she demanded, seizing a mop that stood just inside the door—"trouble?"

"No, madam," said the tramp, hurrying a little until he was safely on the other side of the fence; "I'm lookin' for a way out. If I'd been lookin' for trouble I'd ha' stayed inside there where you are."

And he made blithely up the road.—John Kendrick Bangs in Lippincott's Magazine.

Simplicity Itself.

"You are not going to make garden again this spring, are you?" asks the fond wife of the brutal husband.

"I certainly am," declares the brutal husband, a look of stern determination settling upon his countenance.

"But last year your radishes came up turnips and your onions came up spinach and your sweet peas came up corn. I should think that would discourage you."

"That's the woman of it! This year I will simply plant turnips and spinach and corn and get the radishes and onions and sweet peas I want."—Chicago Post.

Insinuating.

"Lady," said Meandering Mike, "you don't want to listen to no hard luck story, do you?"

"Not a bit of it."

"You relieve my mind. If you want to hear somethin' worth while you jes' gimme a chance to show what I kin do as an after dinner speaker."—Washington Star.

Hardened.

"I'm afraid you'll find the atmosphere a little stifling," the landlord of the lower region apologetically remarked to the newcomer.

"Oh, don't worry about me," said the stranger. "It can't be any worse than a crowded street car."—Cleveland Plain Dealer.

A Composite Product.

Mrs. Boggs—Mr. Meekman is a splendid example of what a man ought to be.

Mr. Boggs—Not on your life! He's a splendid example of what a wife, two sisters, a grownup daughter and a mother-in-law think a man ought to be.—Puck.

He'd Noticed It.

"Fine weather," remarked the passenger.

"So I've learned to my sorrow," replied the chauffeur as he gave the steering wheel a quick turn to avoid running over a policeman. "I've paid three in the last week."—Judge.

Cause and Effect.

"So you parted never to meet again?"

"Yes."

"And what happened then?"

"He kissed me goodby."

"Ah!" When are you to be married?"—Minneapolis Journal.

"Our Hero Was Deeply Touched."

Love Was Dead.

Mrs. Naggs—I'm sure my husband has ceased to love me.

Mrs. Waggs—How do you know?

Mrs. Naggs—I no longer possess the power to make him miserable.—Houston Post.

Good Investment.

DeFlatt—Is it true that you once bribed an officer of the law?

Suburb—You can call it a bribe if you want to. I gave a policeman $2 to induce our cook to stay.—Chicago News.

Her Reason.

He—Do you know any good reason why women should vote?

She—Yes, I do.

"What is it?"

"Well, because."—Yonkers Statesman.

In Spite of It.

Mother—And when he proposed did you tell him to see me? Daughter—Yes, mamma, and he said he'd seen you several times, but he wanted to marry me just the same.—Sphinx.

THE LAPLANDERS.

This Dying Race to Be Transplanted to Labrador.

A commencement has just been made in a most remarkable and long talked of enterprise. This is nothing less than the transplanting of the Lapps from Lapland, where they are a dying race, to Labrador, where it is hoped that they will flourish and increase.

Whether these hopes will be justified or not remains to be seen. Similar experiments in the past have seldom been wholly successful, and some have resulted disastrously.

The Doukhobors, for instance, who in 1899 were transported to the number of 8,000 or 9,000 from their homes in southern Russia to the Canadian northwest, were for a time in dire straits. They also behaved erratically, marching naked through the snow and abandoning their flocks and herds to the wolves. They are now, however, reported to be settling down and doing better.

On the other hand, the attempt made some eighty years ago to transplant the Roskolnikis of the Don country to a new home that was supposed to have been found for them in eastern Turkestan resulted in one of the most ghastly tragedies recorded in the annals of history. The huge caravan lost its way in the terrible desert of Gobi and was never heard of again, the probability being that hunger and thirst, combined with the attacks of nomad robbers, were responsible for the deaths of the entire party.

Equally dreadful was the fate that befell the 10,000 Jutlanders transplanted to the east coast of Greenland by Queen Margaret of Sweden. At first they flourished exceedingly. Villages were founded, churches and schools were built, and a bishop was appointed.

Then one year the ice pack broke loose from the remote northern seas and came to a standstill along the coast opposite the settlements in a belt fifty miles broad.

All communication with the open sea was then cut off. The settlers were unable to obtain supplies, and in the end they perished down to the very last man.—Pearson's Weekly.

Money Hidden by Prisoners.

"I would venture it as a safe assertion that there is every cent of $2,500 in cash hidden within the walls of this prison," said Colonel E. E. Mudd, the warden.

He then explained that the convicts hide the money in all sorts of places, even to burying it in the yard. They will hide it in cracks in their cells and in the shops, frequently changing it so that the other convicts cannot get hold of it. A convict complained to the warden recently that he had $100 hidden under the window sill in one of the shops and that it had been stolen from him by another convict. This shows how much money gets into the prison from time to time and is not discovered when the general search is made. The convicts are not allowed to have money in their possession, although they may keep it with the prison clerk. When the search was made the other day an old negro was forced to cough up 85 cents, which he had in pennies and nickels concealed in his mouth.—Frankfort Cor. Louisville Courier-Journal.

Crazy Railway Methods.

How the Chinese are wasting British capital in building the Shanghai-Hankow-Ningpo railway is told by the Pekin correspondent of the London Times, who says: "The railway presents every possible defect. Bridges are unsafe. Rails are of native manufacture, of obsolete section, spiked into soft wood sleepers from Manchuria and Japan. Sleepers are wrongly laid. Wrongly ballasted, their life in this soil is little more than one year. Eight different patterns of rolling stock are in use. Where there was difficulty in bridging a stream the Chinese built the bridge on dry land and then dug a canal and diverted the waterway under the bridge, both the entrance to the diversion and the exit from it being literally at right angles to the natural direction of the stream."

Canada and a National Anthem.

Every now and then some one tries to write a national anthem for Canada; but, in the opinion of the Victoria Colonist, every effort is a failure. The Colonist adds: "Canada is not old enough to have evolved a national anthem. The sentiment of the people has not clustered around any particular person, event or idea. When the average rhymester sits down to write a Canadian song he tries to include everything in it, from the herring fleet of Nova Scotia to the miners of the Klondike, and the result is a species of directory. By and by something may happen, or we may do something as a people, or some one may think of something that will catch the popular idea."

Chicago and Mail Orders.

Chicago claims the distinction of being the mail order center of the universe, and some recent figures from the postoffice there would seem to establish the right to the honor. One of the biggest mail order houses recently broke all postal records by mailing 6,000,000 catalogues, each weighing two ounces, the whole weighing 450 tons. The sacks holding the catalogues weighed sixty-five tons. If these pamphlets had been sent on one train thirty cars would have been filled.

WILL HER LOVE SURVIVE?

She loves me dearly, she declares,
This maid so sweet and pure.
All joys and griefs with me she shares.
Of that I am quite sure.
But as Time urges his career
From day to week and month to year
A small voice whispers in mine ear,
Say, will her love endure?

Me she cajoles with all the wiles
Her woman's wits contrive—
Embraces, kisses, tears and smiles—
But will her love survive?
Alas, I fear the years to be
Will change her attitude to me,
For at the present day, you see,
I'm fifty—she's just five!

Oh, the chemists have perplexed us
Till we find we cannot state
Where the viands that have vexed us
Really originate.
When an unfamiliar savor
Marks the fruits that used to suit,
Is it a benzoic flavor
Or a failure of the fruit?

If you have to read the label

To decide what it may hold,
When with citizens too frisky
The police are playing tag,
How shall they distinguish whisky

CRUSHED IN THE ICE.

Thrilling Experience on Board a Sealing Vessel.

HOW THE SHIP WENT DOWN.

Smashed In Amidships and Powerless to Escape, She Was Swallowed In the Icy Deep—The Wild Rush of the Crew to Escape on the Floe.

Constant peril menaces the hardy crews that fearlessly sail into the icy northern seas and risk their lives in the dangerous work of hunting the seal. In Harper's Magazine George Harding, the author, writes dramatically, of the sinking of the ship on which he sailed with the Newfoundland sealing fleet. His experience was uniquely perilous. The ship was crushed like an egg in the ice.

"On the bridge were the captain and watch anxiously awaiting the chance to head the ship out of the moving ice into the stationary pack of which the big sheet was part. The bowline lay on the barricade, ready for heaving when the crew should be ordered on the floe to haul the ship's head around. Aloft, the spyman searched the gloom for signs of a hull in the confused and tremendous waste.

"Then there came a terrific crush. The vessel, caught in the trench between the raftering sheets, was powerless to escape. The smash of breaking timbers rose above the gale as a great corner of ice crushed the vessel's side amidships. The captain and watch rushed to the engine room. It was filled with steam, the inflowing water having already reached the fires. A glance showed that nothing could stop the inrush of water. The firemen were retreating. The first of them, like a creature from another world, coal begrimed, undershirt clad, reached the ice sheathed deck, spreading panic in his path. Above the hailing of questions and shouts that no man could understand came the voice of the skipper; he knew the situation as no other man.

"'Men,' he shouted, 'the ship 'll go! Pack your clothes—save the grub!'

"Then it was confusion everywhere. The crew poured up the hatchway, hauling clothes boxes and bags, crowding over the side, colliding in midair as they half tumbled and half slid down the ropes, then back for food. Laboriously the heavy pork barrels were hauled by hand from the after hold, where men bravely toiled. Others fought their way aloft, where the sails were stowed. The canvas cut loose, bellying out in the force of the gale, was dropped to the deck. Punts were slipped from the davits. Some, hitting the ice with a crash, were stowed in. Throughout it all the captain shouted:

"'Haul them punts and grub farther off! Farther yet! Farther!'

"The water, rapidly rising, drove the men from the lower hold. They retreated to the deck. Then the inflow, level with the ocean, ceased. The ice for the time held the ship in its grip. Second by second passed, bringing no change. In that brief interval each man suddenly thought to save the thing he most desired. A wild rush was made to wheelhouse, to cabin, to the ship's storeroom—every man for himself—a scuffle to get the thing most coveted and escape to the ice. With one it was a rifle from the ship's armory to replace the antiquated muzzle loader at home; with another, the ship's compass or the barometer; with the after galley cook it was the cabin dishes. In the cabin a crowd surged to the medicine chest, scrambling for liniments and pills, smashing anything that was an obstacle in their way. Such was the scene when the cry arose on deck, repeated by fifty men and echoing throughout the vessel, 'Tis time to take to the ice!' Then a great rush to be clear of the doomed ship as the mass of men, some empty handed, others laden, defending their spoil from the unsuccessful, plunged on to the ice.

"The ship was sinking fast. It was but a short leap for the last man from her deck to the loosening ice. The men stood on the floe, looking the ship over from the bow, lifted high, to the stern, now below water.

"'A pity to lose the vessel,' they said. 'Wonderful hard to lose the trip o' fat.'

"Then came the final plunge. The mainmast, reaching over the floe, broke as the weight of the vessel pulled it under. The great anchors sliding from the bow added to the tumult, as everything not frozen solid to the deck crashed into the house and galley. For a second a flash of flame shot from the overturned stoves; then nothing save a few seal pelts and broken oars lay on the surface of the troubled hole in the floe where the Grand Lake had disappeared."

COLUMBUS KNIGHTS WILL CELEBRATE

San Mateo Council Will Hold Anniversary Observance at Menlo Park.

Next Sunday, June 27th, will be a gala day in Menlo Park. San Mateo Council No. 1346, of the Knights of Columbus, will celebrate the anniversary of the institution of their Council by a pilgrimage to Menlo Park. All the local Knights of other Councils and the Palo Alto Knights of San Jose Council have been invited to be present with them on this occasion. The Knights of San Mateo Council will arrive at Menlo Park on the 9:25 train. A wait will be made at the depot until the 9:35 train arrives bearing the Palo Alto Knights. All the members will then form in line and march in a body from the depot to the church.

At 10:30 o'clock a solemn high mass will be celebrated, assisted by an augmented choir. Rev. Fr. Harrington, who is a member of San Francisco Council No. 615, will preach a sermon on "Christian Knighthood." Immediately after the mass, luncheon will be served to the visiting Knights and their ladies in the Parochial Hall, by a number of ladies of the parish; the relatives of the local Knights and a number of young ladies from the sodality volunteering for the work.

After the luncheon all will adjourn to the Seminary grounds, which have been kindly placed at their disposal by the faculty of the Seminary, and the Knights will indulge in a friendly game of baseball until about 3 o'clock. The Knights of Columbus is a Catholic organization, which dates its existence back over a quarter of a century. It began in the city of New Haven, Connecticut, and was intended at first as a fraternal organization for the Catholic students attending Yale University. Gradually the Order took upon itself a larger scope and a new purpose and during this time has spread all over the United States, Canada, Mexico and Cuba. It comprises within its membership in the United States today about 300,000 members. Only Catholics who are noted for their practical faith are eligible for membership in this organization.

An interesting feature of Sunday's celebration will be the presence of Hon. Edward White, of Watsonville, the present Worthy State Deputy of the Order in California, and brother of the late U. S. Senator Stephen M. White, California's favorite son. At the conclusion of the mass, the Knights in a body will sing the ode of the Order: "Onward Christian Soldier." An address on the aims and spirit of the Order will be delivered in the Parochial Hall in the afternoon by the Worthy State Deputy.

ROAD OIL CONTRACT CANCELED

Route of Bear Gulch Road is Ordered Changed---Pacific Telephone Co. Has New System.

The board of Supervisors met in regular session last Monday. All the members were present and considerable routine business was transacted.

E. E. Cunningham & Co., of South San Francisco sent a communication asking for a share of the insurance on the courthuse building and submitting a list of reliable companies represented by them.

The communication was accepted on motion of Blackburn and ordered filed.

The United Gas and Electric Co. asked for permission to excavate the county road where its gas mains are located without securing permission of the board to make repairs in cases of emergency. McEvoy thought the existing ordinance should be amendedm before such permission be granted. On motion of Blackburn the District Attorney was directed to amend the ordinance.

H. H. Davis sent a communication to the board in which he maintained that the road leading to his property near San Gregorio was a public road, as was stated at a recent meeting. The road has always been kept in good condition and has been used by the public for the past fifteen years. The communication was ordered filed for future consideration.

Architect Allen gave his written consent to changing the concrete flooring and roofing of the courthouse from 3 1-2 to 4 1-2 inches in thickness and the same was ordered incorporated in full in the minutes.

Coroner Plymire made a written report of the disposition of the personal effects of George W. Porter and Robert Giles, two deceased persons, whose estates were of insignificant value.

Several parcels of property erroneously assessed were reported by the Tax Collector and same were ordered corrected and properly recorded.

Supervisor Francis reported that in his efforts to secure the necessary land for a change in the roadway at Long Bridge in his township to obviate two undesirable railroad crossings, he had become acquainted with the fact that Chairman McEvoy had been appointed guardian of Perry Morrison, from whom it be necessary to secure the needed land. He was granted until the meeting on July 19th to confer with Mr. McEvoy and report on the matter.

Chairman McEvoy reported in regard to the claim of the Town of Palo Alto for $183. He said the bill was for gravel furnished the county but that it was outlawed. He was given further time to make a final report.

Vernon Smart, local manager of the Pacific Telephone Company, exhibited an improved telephone which he stated could be made use of in an intercommunicating system in the courthouse or for local or long distance use. It could be installed at a cost of $350 and a charge of $33 per month would be made for twenty-one phones on a five year contract.

C. E. Peacock representing the Direct Line Telephone Company, whose bid to install a system was accepted at a previous meeting, stated that he had been given to understand that the contract was his and had made preparations to install his phones. He wanted to know who would pay the expenses that had been incurred by him now that the work had been stopped.

The chairman informed Peacock that since accepting his bid it had been learned that the work could be done much cheaper and in justice to the taxpayers the matter had been held in abeyance. The contract had not been entered into and would not be until the board had satisfied itself that the public was getting full value for its money.

The subject was referred to Mr. McEvoy with power to investigate the offers of both companies and enter into contract with the one making the best offer.

George C. Ross, representing J. A. Folger, and others who petitioned the board some time ago for a change in the route of the BearGulch road, asked to have the petition taken up. J. A. Folger was sworn and testifiedd that the signers to the petition were tax payers of the Third Township and that the right of way offered was more acceptable than the other one. The customary resolution was adopted making the change. There were no protests and a deed to the county for the new right of way was ordered recorded in the road book of the county.

J. F. Ford, Superintendent of the Poor Farm, in a communication to th board said that two additional work horses were needed at the farm. The communication was referred to the Poor Farm Committee...

At the request of Casey the matter of removing telephone poles from the streets at Hillcrest went over until next meeting.

C. Coghill, to whom was awarded the construction of a concrete bridge at San Gregorio, complained that he was stopped from work. Blackburn stated that owing to some misunderstanding by the surveyor the bridge was not located where he had indicated and desired the location changed. The contractor said he had no objection to making the required change if he were paid for the work already done. The matter will be adjusted by the surveyor and Supervisor Blackburn.

T. B. Adams was denied permission to move his saloon license from San Pedro Terrace to Long Bridge.

The complaint of certain residents at San Bruno regarding the Spring Valley flume at that place was taken up.

A. A. LaLeaux spoke in support of the protest, stating that the flume was an injury to property.

Judge Fitzpatrick, representing the water company, informed the board that the right to construct the flume on the San Bruno road had been secured by the company from the San Bruno Turnpike company in 1885, when the highway in question was a private road. When it later passed to the county the privilege enjoyed by Spring Valley was not disturbed. He maintained that the board was without jurisdiction.

On motion of Coleman the matter was postponed until the next regular meeting.

Onm otion of Blackburn seconded by Frances the former action of the board in appointing fire commissioners for the San Bruno Fire District was rencinded. This was done at the suggestion of Archer Kincaid who said the commissioners had called for an election to vote bonds for $1700 to equip a fire department and that end less litigation would ensue.

A. A. LeRoux strongly upheld the action of the commissioners and urged the board to stand by their former action.

A resolution was presented by McEvoy and introduced on motion of Blackburn cancelling the contract recently entered into with the Associated Oil Companies of California to furnish 5000 barrels of oil to the Third Road district, it being shown that the contractor was unable to furnish the oil specified in the agreement.

The recommendations of Architect Allen regarding certain changes in the partitions of the courthouse were approved.

The statement was made to the board by Attorney Hall C. Ross that Rainey & Phillips had given an order to Treasurer Chamberlain to pay the claim of Victor Michell, amounting to $298.80, for anchors furnished the former in the stone work on the courthouse. With this understanding the claim of Rainey & Phillips for $1310 was allowed.

This being the day for filling two vacancies on the Board of Education Casey named W. J. Savage and Frances nominated John E. Wall. The vote resulted as follows: W. J. Savage, 4 votes, J. E. Wall, 3 votes and M. L. Benson 1 vote.

Savage and Wall were declared elected to fill a term of two years.

GO TO THE RESCUE.

Don't Wait till it's Too Late—Follow the Example of a Redwood City Citizen.

Rescue the aching back.
If it keeps on aching, trouble comes.
Backache is kidney ache.
If you neglect the kidneys' warning,
Look out for urinary trouble—diabetes.

This Redwood City citizen will show you how to go to the rescue.

C. J. Bettin, living at 607 Cedar st., Redwood City, Cal., says: "Some eight or ten years ago I slipped ond strained my back and from that time on I was more or less troubled by a dull, heavy pain across my loins and kidneys. Seeing Doan's Kidney Pills highly advertised, I procured a box and commenced using them. They went directly to the seat of my troudle, strengthening my back and regulated the action of the kidney secretions. I can say that the claims made for this remedy were provtrue to me."

Assessor's Instructions

To Owners of Real Estate and Personal Property.

The law requires each and every person who owns any class of property to annually, during the months of March, April or May, file a statement with the Assessor or his deputy in the county where the property is located. You should give a statement of all property owned by you on the first Monday in March at 12 o'clock m.

If you hold mortgages against others send in a mortgage statement showing amount due on each mortgage on the first Monday in March at 12 o'clock m.

No change can be made by the Assessor after he turns his books over to the Board of Supervisors on the first Monday in July. The Boards then sets as a Board of Equalization during the month of July.

Remember, if you fail to give in your assessment you fail to comply with the law and may cause yourself, the Assessor and Tax Collector much trouble, and, very likely cause yourself expense.

It is much more satisfactory to the Assessor, as well as to yourself, to have your assessment correct when you go to pay your taxes.

C. D. HAYWARD.
Assessor, San Mateo County.
